THE LOS ANGELES METROPOLITAN AREA SURVEY

(LAMAS)

SURVEY RESEARCH CENTER, UNIVERSITY OF CALIFORNIA,
LOS ANGELES

THE LOS ANGELES METROPOLITAN AREA SURVEY (LAMAS)

The Los Angeles Metropolitan Area Survey, inaugurated in the spring of 1970, is a shared-time omnibus survey of Los Angeles County community members, usually repeated twice a year. LAMAS enables research investigators from universities, governmental agencies (at all levels), and research institutes to obtain data from a representative sample of 1,000 Los Angeles metropolitan area households (city and county) in a more efficient and economical fashion than is possible if each researcher conducts an independent survey.

The cost of participating in LAMAS is on a per question basis, as discussed below, and the contributing researcher receives the results pertaining to his specific questions, plus background data. Shared-time omnibus surveys are not only economical; by reducing the number of independent surveys in the field, they can help minimize the strains aroused in communities whose members feel they have been oversurveyed.

Although each survey is designed to meet the varied needs of contributing researchers, an important LAMAS goal is the development of a set of standard "community profile" measures appropriate for use in studies connected with the planning and evaluation of public policy and action programs. The social profile variables include attitudes and perceptions of living conditions in the neighborhood and of its program needs. A predominant theme in the Center's contribution to the instruments is the inclusion of indexes and scales for "tracking" the development and course of social indicators and the impact of public policy on the community. These social indicators, including social, psychological, health, and economic variables, permit measurement of social change at semiannual intervals and, thus, analysis of short-and long-term trends in the quality of life at the regional level. LAMAS provides an opportunity to investigate specific trends in both the city and Los Angeles County.

In addition to trend studies of attitudes and behaviors, LAMAS provides for panel studies of subsamples of the population. In such studies, the focus is on both probability and purposive construction of panels of respondents to permit more intensive exploration of key social problems than is possible either in a single survey or in analysis of trends in survey results.

USES OF LAMAS

The strength of LAMAS stems from its highly unclustered sample design and the varying types of areal aggregation such samples permit. Data from 100 sampling points in the county can be aggregated at the following levels:

1. Los Angeles County as a whole
2. The city of Los Angeles
3. Independent cities in Los Angeles County
4. Specialized subareas (e.g., county health districts, law enforcement reporting districts, hospital service areas, etc.)

Several studies conducted by the Survey Research Center have used LAMAS data for comparative purposes.

Model Neighborhood Survey. In the spring of 1971, the Center conducted a survey of the Willowbrook/Florence-Firestone communities for the Los Angeles County Model Neighborhood Agency. The survey was to provide baseline data on community conditions (e.g., employment, income, education, health, housing, crime, etc.) to permit assessment of the effects of Model Neighborhood programs after the five-year demonstration period. The same data were gathered from county residents (LAMAS III) to serve as a "control" for county-wide changes that might influence conditions in the model neighborhood independent of program effects. More important, county data were used to establish levels of relative deprivation suffered by model neighborhood residents as a result of their low-income and minority status. The data showed clear differences between county and model neighborhood residents in levels of income, education, employment and occupational status, and in their assessments of the quality of life. Even controlling for minority status (black and Mexican-American) within the county, some differences remain which suggest particular effects of residence in the model neighborhood area (South Central Los Angeles). For example, model neighborhood blacks are more negative about the quality of police protection they receive than are blacks in the county as a whole.

Alcohol Safety Action Project. In the spring of 1972, as part of LAMAS (LAMAS V), the Center conducted the first of four studies on drinking and driving behavior. Los Angeles is one of twenty-six cities in the United States in which this research is being conducted. The project is administered locally by the Alcohol Safety Action Project (ASAP), a consortium of public and private agencies concerned with problems arising from drinking and driving. A four-year research program in LAMAS is planned; in addition to providing descriptive data, we will attempt to evaluate the effects of an ASAP campaign to publicize the dangers of drinking and driving.

1
Health Care Needs Study. In the spring of 1973, as part of LAMAS (LAMAS VI), the Los Angeles County Department of Health Services and the Comprehensive Health Planning Council of Los Angeles County conducted a survey designed to assess the health status and physician-use patterns of county residents. The survey was undertaken so that county health professionals could generate estimates of frequency and types of illness; disability days; physician, dental, and mental health visits; unmet needs for health service; days of hospitalization; and use of public and private health, hospital, and mental health services. The data will be used to develop specific policy alternatives regarding the expansion, modification, and allocation of resources to current and future health delivery systems. A report of the findings and recommended policy decisions based on the data will be presented to the Los Angeles County Board of Supervisors.

TECHNICAL OPERATIONS

Sampling

The Survey Research Center has recently redesigned its sample of households in the Los Angeles metropolitan area, using the most current Census data. LAMAS utilizes a multistage, stratified probability sample with the following characteristics:

1. Los Angeles County is divided into ten geographic regions: (a) four regions in the city of Los Angeles; (b) one region composed of all unincorporated areas of the county; (c) one region that includes the city of Long Beach; and (d) four other regions: the western, southeastern, eastern, and northeastern municipalities.
2. Block groups in each region are stratified by housing value, percentage owner-occupied, and percentage nonwhite.
3. 100 block groups are sampled from the ten regions.
4. Two block clusters are drawn from each of the 100 block groups, and an address file of 40,000 dwelling units has been compiled. Household respondents are selected according to the method described in Leslie Kish, Survey Sampling, (Wiley, 1965), pp. 396-404.

The unclustered nature of the sample permits the Survey Research Center to oversample selected subpopulations (e.g., ethnic groups within LAMAS), as well as to undertake special studies of subpopulations within specified geographical areas of the county or city. (Additional charges for oversampling in LAMAS or special studies are arranged in conference with the individual investigator.)

Computer Sampling

The Survey Research Center has developed a general computer software package for sampling, using 1970 Census tapes. This package makes it possible to draw an area probability sample at reduced cost for any county in California as well as in the rest of the United States.

Field Operations

A. Procedures

Survey Research Center interviewers are well trained and closely supervised throughout the field process. For example, interviewers are assigned a list of dwelling units and required to select respondents from dwelling units, using strict probability methods; they have been specially trained in the use of this probability selection procedure, and results are closely monitored by central office supervisors. In addition, basic

interviewer training includes workshops and practice interviewing. All instruments fielded by the Center are subjected to a pretest process. Following a final briefing on a specific study, interviewers are permitted to take only one interview before returning to the office for a discussion with the field supervisors. Interviewers are requested to make three calls in order to secure a response, including night and weekend calls. Escorts are provided during unusual hours to maintain an acceptable response rate.

Every instrument is edited and checked for quality immediately upon its arrival at the Center to ensure completeness and accuracy. In addition, approximately 20 percent of the field staff's work is verified in ten-minute interviews with respondents, conducted by telephone when possible but at the homes of respondents when that is the only means by which they may be reached. The verification rate varies with the experience of the interviewer and the complexity of the instrument design and is always higher during the initial stage of a study.

B. Bilingual Research

The Survey Research Center has embarked on a special program for recruiting and training bilingual interviewers who work in the large Mexican-American community of Los Angeles. The Center provides Spanish-language versions of all materials, and interviews are always taken in Spanish when appropriate; bilingual supervisory and quality-control staff work closely with these interviewers.

Data Reduction

LAMAS data are reduced in two stages. In the first stage, precoded questions are edited and punched for analysis purposes on IBM cards from the questionnaire. The precoded questions are then passed on to the data processing section for analysis. This process considerably shortens the time required to produce output, and precoded questions are available for analysis within five weeks after completion of the field operation.

Open-ended questions are coded in the second stage. If the client has submitted open-ended questions, he or she is encouraged to consult with our coding section as they construct the coding frames. During the first week of coding, 100 percent of each coder's work is checked by the supervisor and independent work discussions are commonplace. Twenty percent of the open-ended questions are double-coded, and intercoder reliability figures are reported.

Data Processing and Analysis

Two campus computing facilities are available to the Center's data analysis and programming staffs. Both facilities house IBM system 360, model 91s, and are accessible from interactive terminals at the Center.

LAMAS data are processed using the Statistical Package for the Social Sciences (SPSS). This is a flexible, user-oriented, data manipulation package available for editing, screening, documenting, and transforming a data set

preparatory to making statistical analyses and is particularly useful for the analysis of survey data. Statistical analyses include correlation, nonparametric statistics, regression and multiple regression, Guttman scaling, and a fast factor analysis program.

For the cost of the initial question, the investigator will be given the following statistical output: frequency distributions ("marginals") of the results of the questions contributed by the investigator, and cross-tabulations of these questions by SEX, AGE, INCOME, EDUCATION, ETHNICITY or RACE, and OCCUPATION. *If the investigator has five or more questions, he or she may obtain the data with background variables in the form of punched IBM cards, card-image tape, or an SPSS system file.* Statistical analyses other than those mentioned above can also be performed at the request of the investigator at a negotiated additional cost. Second-, third-, and fourth-count U.S. Census data for the Los Angeles metropolitan area are concatenated with the individual-level data collected through LAMAS and can be provided to the client, again at a negotiated additional cost.

Aggregate Data and Survey Data

The Center has developed a software package for accessing DUALabs Census tapes which considerably reduces the costs of using Census data. The program will selectively decompress only those geographical areas and/or data tables specified by the user, bypassing data he does not want. In addition, the data can be output for processing through standard software packages available on campus (e.g., SPSS, BMD, DATATEXT). Census data combined with survey data from LAMAS expand the data base available to the client and can provide contextual information to complement survey data. In addition, aggregate and survey data can be combined so that relationships between these two levels of data can be examined.

SAMPLE QUESTIONS FOR ESTIMATING COST

ONE PRE-CODED QUESTION

Now, thinking back to your recent illnesses or injuries--in the past two months did you have any illness that kept you in bed, indoors or away from your usual activities?

yes 1
no 2

ONE PRE-CODED QUESTION WITH SEVERAL POSSIBLE RESPONSES

Do you have any of the following types of medical coverage or health insurance?

Blue Cross (Blue Shield) 1
Kaiser-Permanente 2
Ross-Loos 3
Equitable Insurance 4
Occidental 5
Medicare 6
Medi-Cal 7
other 8
SPECIFY: _____
none 9

PRE-CODED QUESTION LIST--ONE PART = 1/2 QUESTION, 2 PARTS = ONE QUESTION

We are interested in the way people are feeling these days. During the past few weeks did you ever feel:

	YES	NO	DON'T KNOW
A. pleased about having accomplished something?	1	2	8
<hr/>			
B. very lonely or remote from other people?	3	4	8
<hr/>			
C. that things were going your way?	5	6	8
<hr/>			
D. upset because someone criticized you?	1	2	8
<hr/>			
E. on top of the world?	3	4	8
<hr/>			
F. so restless that you couldn't sit long in a chair?	5	6	8
<hr/>			

	<u>YES</u>	<u>NO</u>	<u>DON'T KNOW</u>
G. bored?	1	2	8
H. proud because someone complimented you on something you had done?	3	4	8
I. depressed or very unhappy?	5	6	8
J. particularly excited or interested in something?	1	2	8

PRE-CODED SORT OPERATION--EACH PART = 1 QUESTION

You hear a lot of talk these days about what might happen if the population of the United States keeps growing. I have some cards here which have on them some of the things people say could happen if the population keeps growing. I would like you to read these cards and put them into three pockets: in one pocket, statements you think are true or probably true and in another pocket, statements you think are not true or probably not true. If you cannot decide about any of these statements, then put them in the pocket labeled "cannot decide." (HAND CARDS TO R. GIVE R TIME TO SORT.)

TIME BEGINNING: _____

TIME ENDING: _____

- A. This country is large enough so that if we build new towns and cities out in the countryside there will be enough space for us even if the population gets much larger.

true 1
not true 2
cannot decide 8

- B. If the population of the country gets much larger, air and water population problems will get much worse and will be very difficult to solve.

true 1
not true 2
cannot decide 8

- C. If the country's population gets much larger, we will not have enough food to feed all the people.

true 1
not true 2
cannot decide..... 8

D. How large our population becomes has little to do with whether we can solve other social problems like poverty, crime and slums.

true 1
not true 2
cannot decide 8

E. Even if the population gets much larger, we can find ways to produce enough food to feed all of the people in this country.

true 1
not true 2
cannot decide 8

F. The number of people in a country does not have much to do with whether there is a pollution problem. Pollution is caused mostly by other things.

true 1
not true 2
cannot decide 8

G. Unless we do something to keep this country's population from getting larger, we will not be able to solve problems like poverty, slums and crime.

true 1
not true 2
cannot decide 8

H. If this country's population gets much larger, we will run out of use-able open space and have to live under very crowded conditions.

true 1
not true 2
cannot decide 8

ONE OPEN-ENDED QUESTION--NUMERIC RESPONSE, NO SURCHARGE

Since you first moved to the Los Angeles area, how many times have you moved from one house or apartment to another?

NUMBER OF MOVES: _____

ONE OPEN-ENDED QUESTION, SURCHARGE FOR DATA REDUCTION

Let's say that you are a driver. A traffic policeman stops you and claims that you have broken a traffic law. He wants to give you a ticket. What would you do?

ONE OPEN-ENDED QUESTION WITH RESPONSE DESIGNATIONS: TWO DESIGNATIONS = ONE QUESTION: EACH ADDITIONAL DESIGNATION = 1/2 QUESTION, SURCHARGE FOR DATA REDUCTION

Now, thinking about problems we have here in Los Angeles area (city and county): What do you think are the most important problems we have here in the Los Angeles area?

- (1) _____
- (2) _____
- (3) _____
- (4) _____
- (5) _____
- (6) _____

PRE-CODED RATING SCALE--EACH PART = 1 QUESTION

Now, from what you have just heard, how honest or dishonest a businessman would you say this car dealer is? Here is a card with "very dishonest"--number one--at one end, and "very honest"--number seven--at the other end. You may use any number on the scale. Would you look at this scale and tell me which number comes closest to how you feel?

- A. Please tell me which best represents how honest or dishonest you feel the car dealer has been:

Very dishonest 1 2 3 4 5 6 7 Very honest

- B. Now, here is another card which has another scale. Tell me a number which best represents how wise or foolish you think the car dealer is.

Very wise 1 2 3 4 5 6 7 Very foolish

- C. Here's another card: how unyielding or yielding would you say the car dealer is?

Very unyielding 1 2 3 4 5 6 7 Very yielding

D. How cooperative or competitive would you say the car dealer is?

Very cooperative 1 2 3 4 5 6 7 Very competitive

E. And how unfair or fair?

Very unfair 1 2 3 4 5 6 7 Very fair

F. And how hard or soft would you say this car dealer is?

Very hard 1 2 3 4 5 6 7 Very soft

G. How active or passive would you say he is?

Very active 1 2 3 4 5 6 7 Very passive

H. And finally, how selfish or generous would you say this man is?

Very selfish 1 2 3 4 5 6 7 Very generous

ONE PRE-CODED QUESTION AND ONE OPEN-ENDED QUESTION, WITH SURCHARGE

Suppose the number of people in the Los Angeles area were twice as large as it is today--suppose there were fourteen million people in this area, instead of seven million. Do you think your own life would be different if there were twice as many people living in the Los Angeles area or do you think your own life would be about the same as it is today?

different..... ASK A..... 1
same as now..... 2

A. How would it be different?

SPECIAL SURCHARGES

The LAMAS staff will negotiate specific surcharges under the following conditions:

1. Complex and/or lengthy questions with a number of response options.

2. Computer rotation of a question or questions (e.g., Question X to be asked of half the sample, Question Y to be asked of other half).
3. A question or questions which require the interviewer to read extended information before eliciting a response.

Survey Costs and Economies of Scale

The costs of research in major metropolitan areas are rising at a time when the need for data on urban areas is both urgent and increasing. Costs for independent surveys range from \$50 to over \$100 per case. Highly clustered samples do not save costs, have little flexibility, and can be challenged in terms of their capacity to represent a large, heterogeneous area such as Los Angeles County. Highly unclustered samples provide better coverage of the population but are quite expensive. The LAMAS sample is moderately unclustered and survey costs are reduced because of economy of scale. For example, a \$10,000 input to LAMAS will provide data at an average cost of \$10 per case for a sample of 1,000. As mentioned above, the investigator receives marginals on all his data as well as cross-tabulations with major background variables. The LAMAS staff continuously monitors the quality of information obtained from these background questions (e.g., occupation, education, income) and will modify them to increase their reliability and validity. Such work saves the investigator time in question construction and instrument evaluation and provides high-quality data to relate to his variables of interest.

COST SCHEDULE

Number of Questions (Precoded)	Questions to be Asked of Total Sample	Questions to be Asked of Predetermined Major Sub- populations*
1	\$ 600 - \$ 800	\$ 480 - \$ 600
2	\$1200 - \$1600	\$ 960 - \$1200
3	\$1800 - \$2400	\$1440 - \$1800
4	\$2400 - \$3200	\$1920 - \$2400
5	\$2820 - \$3700	\$2150 - \$2820
Each additional pre- coded question	\$ 450 - \$ 500	\$ 360 - \$ 450
Surcharge for each free response or open-ended question	\$ 300 - \$ 500	\$ 240 - \$400

*Must be predesignated in interview schedule, e.g., Los Angeles
city residents only, men only.

SPECIAL LAMAS CONSULTATION

The costs outlined above are designed to cover the fielding, editing, coding, cleaning, and processing of a fully developed set of questions submitted by the client. Center staff are available on a consulting basis to clients who need or would like special assistance with the developmental aspects of their research. In this case, the client will deposit an additional amount with the Center, apart from question costs as outlined above, to be used for special developmental purposes.

For further information, call LAMAS director at (213) 825-0711.

July 29, 1974

FROM: Mary H. and Vi

SUBJECT: The Truth about LAMAS Field Dates

After much head-scratching, soul-searching, and digging in the musty-dusty files of the Field Office, we are proud to announce that we have assembled the "true" facts (as opposed to facts based on dim memory and/or guesses) about all LAMAS field dates. This memo will supercede all previous memos about field dates so clean out your files, folks! Ready or not, here it comes:

LAMAS I : May 14, 1970 to July 10, 1970

LAMAS II : November 4, 1970 to January 20, 1971

LAMAS III : April 15, 1971 to June 12, 1971

LAMAS IV : October 12, 1971 to January 15, 1972

LAMAS V : March 13, 1972 to May 29, 1972

LAMAS VI : February 5, 1973 to March 20, 1973

LAMAS VII : October 22, 1973 to December 17, 1973

LAMAS VIII : February 11, 1974 to March 20, 1974

Stay tuned to this station for results on the ninth race of LAMAS.

LAMAS IX 9/16/74 - 12/2/74

LAMAS X 2/9/76 - 4/20/76

LOS ANGELES METROPOLITAN AREA SURVEY, FALL 1973
 (LAMAS 7): LIST OF PARTICIPANTS

QUESTIONSSUBMITTED BY:

1-6	Dr. Barbara Visscher, Division of Epidemiology, UCLA School of Public Health (data on birth and migration)
7-10	Standard SRC Background Questions (own-rent, R and head's education, R's employment status)
8-13	Southern California Association of Governments (transportation data)
14-17	Standard SRC Background Questions (R and head's occupation, R's ethnicity, self-designated)
18-19	Dr. Leo G. Reeder (population policies)
20-21	Dr. Carl Hensler, Department of Political Science, UCLA (political efficacy and involvement)
22-25	Dr. Chuck Ries and Dr. John Kirlin, Institute of Government and Public Affairs, UCLA (comparative evaluation of public services)
26-27	Dr. Carl Hensler, Department of Political Science, UCLA (political efficacy and involvement)
28-50	Los Angeles County Alcohol Safety Action Project, Mr. Robert Verderber (continuing study of attitudes and behavior related to drinking and driving)
51-59	Dr. Chuck Ries and Dr. John Kirlin, Institute of Government and Public Affairs, UCLA (comparative evaluation of public services)
60-62	Standard SRC Background Questions (income and sources of income; did household receive a letter about the survey)
Items A through H	Standard SRC Background Questions (R's sex, age, marital status, ethnicity, type of housing; also, sex of interviewer, language of interview, R's interest during interview)
Page 27:	R's willingness to be re-interviewed at some future date

INTERVIEW ID#

A1. INTERVIEWER: _____ I.D. _____ 26-27/

A2. TIME BEGINNING: _____ AM _____ PM TIME ENDING: _____ AM _____ PM # OF MINUTES: _____ 28-30/

Good morning/afternoon/evening. I'm from the UCLA Survey Research Center. You may have received a letter from our Center telling you about the survey we are doing in Los Angeles. We are interested in finding out how people in the Los Angeles Metropolitan Area feel about the community, what problems there are and what is needed for the future.

Your opinions are very important because you have been chosen scientifically to represent hundreds of other people in Los Angeles. The more people who cooperate, the more successful we can be in reporting the needs of all the people in this city. EVERYTHING YOU TELL US WILL BE STRICTLY CONFIDENTIAL. YOUR NAME WILL NOT BE CONNECTED IN ANY WAY WITH THE FINDINGS OF THIS IMPORTANT STUDY.

A3. First, I would like to make a list of the persons 18 years old or over, who live here as members of your household. This will tell me which adult I am to interview. (AFTER RECORDING INFORMATION IN "A," ASSIGN NUMBERS IN "E" WITH OLDEST MALE = 1, SECOND OLDEST MALE = 2, ETC. AFTER ALL MEN ARE NUMBERED, CONTINUE WITH WOMEN BEGINNING WITH OLDEST TO YOUNGEST.) ^{BEGIN}

A. Name	B. Relationship to Head	C. Sex CIRCLE ONE		D. Age	E. NUMBER & CIRCLE # SELECTED	F. Marital Status* INSERT

(YOU WILL NOW KNOW WHICH ADULT IN THE HOUSEHOLD YOU ARE TO INTERVIEW. IF THAT PERSON TO BE INTERVIEWED IS THE SAME PERSON AS THE "INITIAL CONTACT" YOU ARE ALREADY TALKING TO, ASK QUESTION A4. IF IT IS NOT THE SAME PERSON, ASK QUESTION A5.)

A4. In checking my sampling table, I see that you are the person I am supposed to interview in this household. For the last part of this section, then, would you give me some information on those persons under 18 years old who are living here as members of your household? Please begin with the youngest person.

A5. In checking my sampling table, I see that the person I am supposed to interview is _____. But before I turn to that interview, would you give me information like before on those persons under 18 years old who are living here as members of your household? Please begin with the youngest person.

LIST THOSE 17 YEARS OLD AND UNDER:

A. Which services are these and who provides them?

<u>Services</u>	<u>Who provides them?</u>
_____	56-57/ _____ 62-63/
_____	58-59/ _____ 64-65/
_____	60-61/ _____ 66-67/

23. On this sheet (HAND SHEET #23 TO R) are two drawings that look like pies. The one on the left represents how (_____/the county of Los Angeles) spends money among the following services: For example (POINT TO PIE) _____% to street repair, _____% to parks and recreational facilities. If you were in charge of deciding how much of the (_____/the Los Angeles County) budget should be given to each of these services, how would you change the budget? That is, draw a line from the center of the pie to show the size of the piece of pie which you think should be spent on each of these services. Then put the letter of that service A,B,C,D or E in that section of the pie. (AFTER R DRAWS FIRST LINE ASK:) Would you tell me what percent you gave to (...) so I can record it on my pie as well? (CONTINUE UNTIL YOU HAVE RECORDED A PERCENT FOR EACH SERVICE.)

RECORD % GIVEN

- | | | |
|--------------------------------------|---------|--------|
| A. parks and recreational facilities | A _____ | 7-8/ |
| B. street repair | B _____ | 9-10/ |
| C. garbage collection | C _____ | 11-12/ |
| D. street cleaning | D _____ | 13-14/ |
| E. police services | E _____ | 15-16/ |

24. Currently, the (city government of _____/Los Angeles County) spends about \$400 per household each year on governmental services. We would like you to assume that the federal government gave (_____/Los Angeles County) \$100 per household and that each household was to direct (_____/Los Angeles County) to spend that money as the household saw fit, but only in the following areas: (HAND R SHEET #24)

- A. parks and recreational facilities
- B. street repair
- C. garbage collection
- D. street cleaning
- E. police services
- F. property tax reduction

I would like you to fill in the amount you would give to each choice on the pie below. The size of the piece indicates how much of the \$100 you would spend in that area. Draw a line from the center of the pie to show how much money you would give to each service. Then put the letter of the service, A,B,C,D,E, or F in each section of the pie.

RECORD \$ GIVEN

A _____	17-18/
B _____	19-20/
C _____	21-22/
D _____	23-24/
E _____	25-26/
F _____	27-28/

G.	1	2	3	4	8	36/

26. In general, do you think your city/the County government is run the way it should be, not run the way it should be, or don't you happen to have an opinion on that?

RUN THE WAY IT SHOULD BE..... 1 37/
 NOT RUN THE WAY IT SHOULD BE..... 2
 NO OPINION..... 8

INTERVIEWER: SKIP TO Q28 IF NOT ASKING Q27.

27. Some people tell us that there is nothing they can do to affect what the city/county government does. Other people say they can influence what gets decided here in(_____/Los Angeles County) if they want to. How about you? Do you feel that you can affect what your city/ the County government does or not?

YES, CAN AFFECT..... 1 38/
 NO, CAN'T AFFECT..... 2
 OTHER:..... 6
 SPECIFY:_____

Now, I would like to ask you about driving practices.

28. (SHOW CARD #28) Which three of these do you feel cause the greatest number of automobile accidents? Just read me the letter.

- A. DRIVERS WHO HANDLE A CAR POORLY..... 01 39-40/
- B. DRIVING UNDER THE INFLUENCE OF DRUGS..... 02 41-42/
- C. SOMETHING WRONG WITH CARS..... 03 43-44/
- D. DISREGARD FOR TRAFFIC REGULATIONS..... 04 45-46/
- E. DRIVING UNDER THE INFLUENCE OF ALCOHOL..... 05 47-48/
- F. DRIVING TOO FAST..... 06 49-50/
- G. POOR TRAFFIC LAWS..... 07 51-52/
- H. FAILURE TO ENFORCE TRAFFIC LAWS..... 08 53-54/
- I. UNSAFE HIGHWAYS OR STREETS..... 09 55-56/

A. Which one of the three you selected causes the greatest number of automobile accidents?

RECORD LETTER: _____ 57-58/

Here are some questions about drinking and driving.

29. Out of every ten traffic deaths, how many would you say are caused by drinking drivers?

RECORD NUMBER: _____ 59-60/

30. Do you think that more fatal accidents are caused by the many social drinkers, that is, people that occasionally drink too much, or by the smaller number of problem drinkers, that is, people who frequently drink a great deal?

- SOCIAL DRINKERS..... 1 61/
- PROBLEM DRINKERS..... 2
- OTHER..... 3
- SPECIFY:** _____ 4
- DON'T KNOW..... 8

31. What do you think the term Blood Alcohol Concentration or Blood Alcohol Level means?

- RESPONDENT'S ANSWER CORRECT (% ALCOHOL IN BLOOD)..... 4 62/
- RESPONDENT'S ANSWER WRONG..... 5
- DON'T KNOW..... 8

32. (SHOW CARD #32) The Blood-Alcohol Concentration is based on a chemical test, such as a breath test, and is used to determine whether a person is legally drunk or intoxicated. Which of these do you understand is the legal definition of being drunk in this state?

- ANY TRACE..... 1 63/
- .05%..... 2
- .08%..... 3
- .10%..... 4
- .12%..... 5
- .15%..... 6
- .20%..... 7
- DON'T KNOW..... 8

33. Have you read or heard of a campaign or program that would reduce alcohol-related traffic deaths?
 YES....ASK A & B..... 1 64/
 NO.....SKIP TO Q34..... 2

A. Where did you read or hear about it? (CIRCLE ALL MENTIONED.)

ALCOHOL SAFETY ACTION PROGRAM (ASAP)....	1	74/
ALCOHOLICS ANONYMOUS (AA).....	2	
OTHER.....	3	
SPECIFY: _____	4	
DON'T KNOW.....	8	

BEGIN DECK 05

34. How effective do you think each of the following methods would be in reducing the drinking-driving problem? Just give me the number on this card. (SHOW CARD #34 AND READ A-G.)

How effective would (...) be in reducing the drinking-driving problem?

	EFFECTIVE					
	VERY	SOME- WHAT	NOT VERY	DEF NOT	DON'T KNOW	
A. greater police enforcement of drunk driving laws?	1	2	3	4	8	7/
B. a large-scale public information and education campaign?	1	2	3	4	8	8/
C. improved treatment services for problem drinkers?	1	2	3	4	8	9/
D. more severe penalties for convicted drunk drivers?	1	2	3	4	8	10/
E. friends providing transportation for those who drink too much at social affairs?	1	2	3	4	8	11/
F. special traffic safety classes on alcohol for convicted drunk drivers?	1	2	3	4	8	12/
G. tougher handling of drunk drivers by the courts?	1	2	3	4	8	13/

35. (SHOW CARD #35.) About how many miles do you yourself drive in a year? 14/

- DON'T DRIVE..... 1
- LESS THAN 10,000..... 2
- 10,000 - 19,999..... 3
- 20,000 - 29,999..... 4
- 30,000 MILES OR MORE..... 5
- DON'T KNOW..... 8

Now I would like to ask what you know about California laws that concern drinking and driving.

36. If you refuse to submit to a chemical test of the alcohol in your body when you are arrested for drunk driving, how long will your license be suspended: 15/

- 6 months..... 1
- 90 days, or..... 2
- 30 days?..... 3
- DON'T KNOW..... 8

37. It is against the law to have an open bottle of an alcoholic beverage in your car, unless it is in which of the following places: 16/

- in the trunk..... 1
- on the back seat, or..... 2
- in the glove compartment?..... 3
- DON'T KNOW..... 8

38. If you are asked to submit to a chemical test of the alcohol in your body, which one of the following tests can you choose: 17/

- a blood, breath, or urine test 1
- only a blood test, or..... 2
- only a breath test?..... 3
- DON'T KNOW..... 8

39. Under the "implied consent" law, when are you presumed to have given your consent to a chemical test of the alcohol in your body. Is it: 18/

- whenever you use the highway... 1
- only on advice of an attorney, or..... 2
- only if accident has occurred?... 3
- DON'T KNOW..... 8

40. Drinking is an accepted part of business and social activity for many people. Do you drink beer, wine, or liquor such as whiskey, gin, or vodka? 19/

- YES.....SKIP TO Q41..... 1
- NO.....ASK A..... 2

A. Have you ever drunk beer, wine, or liquor? 20/

- YES.....SKIP TO Q41..... 3
- NO.....SKIP TO Q51..... 4

41. How many drinks do you think you would have to have to reach the level where you would be considered legally drunk?
 RECORD NUMBER: _____ 21-22/

42. How long ago did you last drink beer, wine, or liquor?
 (ONE ANSWER ONLY)

SPECIFY _____

46. How many drinks will you have and continue to drive?

RECORD NUMBER: _____

42-43/

47. How often do you drive after having anything to drink? Would you say that you drive:

- often.....ASK Q48..... 1
- occasionally..ASK Q48..... 2
- hardly ever...ASK Q48..... 3
- never?.....SKIP TO Q51..... 4

44/

48. When you've driven after drinking, have you ever thought you really shouldn't be on the road?

- YES..... 5
- NO..... 6

45/

49. Have you ever refused to drive or decided not to drive because you thought you had had too much to drink?

- YES..... 1
- NO..... 2

46/

50. (SHOW CARD #50) The next two questions are about the chances of certain things happening to you.

A. If you drive after drinking too much, what are your chances of being stopped by the police?

- VERY HIGH..... 1
- HIGH..... 2
- ABOUT EVEN (50-50)..... 3
- LOW..... 4
- VERY LOW..... 5
- DON'T KNOW..... 8

47/

B. If you drive after drinking too much, what are your chances of being involved in an automobile accident?

- VERY HIGH..... 1
- HIGH..... 2
- ABOUT EVEN (50-50)..... 3
- LOW..... 4
- VERY LOW..... 5
- DON'T KNOW..... 8

48/

Now I am going to ask you some questions about the services that are provided by your local government here in (_____/Los Angeles County). Many people don't happen to have opinions on these questions, so feel free to tell me when you don't have an opinion about something.

- 51. Now let's think about your neighborhood--that is, this block and the two or three blocks right around here. (HAND R CARD #51) What do you think of the quality of police services here compared to other neighborhoods in (_____/this area of Los-Angeles County)? Would you say that the quality of police services is:

much better than in most other neighborhoods.....1
somewhat better than in most other neighborhoods...2
about the same as in most other neighborhoods.....3
somewhat worse than in most other neighborhoods....4
much worse than in most other neighborhoods.....5
 something you don't happen to have a opinion about?8

49/

- 52. Now, thinking about this block and the two or three blocks around here, how many of the families who live in this neighborhood are black or Negro? Would you say:

all..... 1
 almost all..... 2
 about one-half..... 3
 almost none, or..... 4
 none?..... 5

50/

- 53. Again, thinking about this block and the two or three blocks around here, how many of the families who live in this neighborhood are Mexican-American or Chicano? Would you say:

all..... 1
 almost all..... 2
 about one-half..... 3
 almost none, or..... 4
 none?..... 5

51/
